PROFILE

Computer Science Engineering undergraduate with a strong passion for innovation, problem-solving, and building intelligent solutions using modern technologies.

EDUCATION

BACHELOR OF TECHNOLOGY– COMPUTER SCIENCE AND ENGINEERING

- Dronacharya Group of Institutions, Greater Noida.
- 2023 – 2027 | CGPA: 7.2 (Up to 6th Semester-2026)

SENIOR SECONDARY (12TH GRADE)

- Scored 74%
- Studied core subjects including Physics, Chemistry, Mathematics, along with English, Hindi and Physical Education.

SECONDARY (10TH GRADE)

- Scored 85%
- Studied core subjects such as Mathematics, Science (Physics, Chemistry, Biology), Social Science, English, Hindi and Computer Science.

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript
Frontend: HTML5, CSS3, React.js, Vite
Backend: Node.js, Express.js (REST APIs)
AI / ML: LLM Integration, RAG-based Systems, NLP
Database: MongoDB, MySQL (Basic)
Tools: Git, GitHub, VS Code, Postman
Deployment: Vercel, Render, Railway
Other: Data Structures & Algorithms, OOPS, Object-Oriented System Design

PROJECTS

1. **ExplainO – (AI Document Intelligence SaaS Platform)**
   Live: https://explaino-07.vercel.app | GitHub: https://github.com/Sant7124/ExplainO

- Built an AI-powered platform that analyzes and explains complex documents using Retrieval-Augmented Generation **(RAG)**. Implemented document parsing, semantic search, and context-aware Q&A using **FastAPI, React, and LLM APIs**.
- **Tech:** React, Vite, FastAPI, Python, LLM APIs (Groq), PyMuPDF, RAG
- **Deployment:** Vercel (Frontend), Render (Backend), GitHub

2. DigiFootprint – (OSINT Digital Exposure Scanner)
   Live: https://digi-footprint-ebon.vercel.app | GitHub: https://github.com/Sant7124/Digi_Footprint

- Built a full-stack platform that scans emails, usernames, and passwords to detect **online account presence, breach exposure, and password leaks** using real security APIs and OSINT techniques, generating a confidence-based exposure score.

- **Tech:** React, Vite, Tailwind CSS, Node.js, Express.js, Axios
- **Deployment:** Vercel (Frontend), Render (Backend), GitHub

3. **AI Internship Recommender – (ML Career Recommendation Platform)**
   Live: https://internshiprecommender.up.railway.app GitHub: https://github.com/Sant7124/internship_rec
- Built a web platform that analyzes user skills and recommends relevant internship roles using **machine learning–based recommendation techniques**. Developed the **complete frontend interface** and integrated it with the backend ML system.
- **Tech:** HTML, CSS, JavaScript, Python, Flask/FastAPI
- **Deployment:** Railway

CODING PROFILE
